GLOBAL

“To create **communities** with a **shared understanding of entrepreneurship as a competence** and who get inspired and make it happen.”

EntreComp Europe will create national strategies which will test and **implement actions** to develop entrepreneurial learning – underpinned by EntreComp at system level – working across **youth-work, education**, employment and enterprise.

# EntreComp

Entrepreneurship is when you **act** upon **opportunities** and **ideas** and transform them into **value** for others. The value that is created can be **financial, cultural, or social**.
